 (316) 835-3169  
 (approx. 15-20 minute drive)

**HERD HEALTH:**

All cattle will be accompanied by proper health certificates for immediate shipment.

**DIRECTIONS:**

**From Wichita** (approx. 45 minute drive)

Take Hwy. 96 West to Haven, KS. At Haven, turn right at first Haven exit (cross railroad tracks). Go North 8 miles.

Note: If you reach Hwy. 50 (stop sign) you've gone 1 mile too far!  
 Turn right onto Illinois Avenue (paved road) – there is an Angus sign saying "Marands Angus - 1 1/2 miles" at this corner. Go 1.5 miles – house sits behind windbreak on south side of road. Angus sign at driveway.

**From Hutchinson** (approx. 15 minute drive)

From junction of Hwy. 61 & Hwy. 50 (John Deere dealership), go east on Hwy. 50 for 7 miles. At Haven-Buhler Road & Hwy. 50 Junction, turn right (south), go 1 mile. Turn left onto Illinois Avenue (paved road). There is an Angus sign saying "Marands Angus - 1.5 miles" at this corner. Go 1.5 miles. House sits behind windbreak on south side of road. Angus sign at driveway.

**From Newton** (approx. 20 minute drive)

At I-135 and Hwy. 50 junction, head west on Hwy. 50 toward Hutchinson, KS. Go 18 miles west on Hwy. 50 to city of Burrton (Kwik Shop on corner is a marker). From Burrton, continue west on Hwy. 50 for 4 miles (unmarked corner/ watch for Angus sale signs). Turn left (heading south) onto gravel road. Go 1 mile. Marands Angus sign at that corner. Turn right (heading west) onto Illinois Avenue (paved road). Go 1/2 mile. Angus sign at driveway.

**From McPherson** (approx. 30 minute drive)

At I-135 and Hwy. 56 Junction, go south on I-135 S/US-81S for 1.9 miles. Merge onto KS-61 S via Exit 58 towards Hutchinson for 12.2 miles to Inman, KS. At Inman (town sits to left at an angle cross a railroad track), turn SLIGHT LEFT onto N Main Street (0.6 miles) which becomes 8th Ave. (3.5 miles). 8th Ave. becomes N Buhler Rd. (2.6 miles). Stay on this road the entire time! You will pass through Buhler and continue south for 8 miles. At mile 7 is the junction of Haven-Buhler Rd. and Hwy. 50 (stop sign). Cross Hwy. 50 and go south 1 mile (towards Haven). Turn left onto Illinois Avenue (paved road). There is an Angus sign saying "Marands Angus - 1.5 miles" at this corner. Go 1.5 miles. House sits behind windbreak on south side of road. Angus sign at driveway.

**TRUCKING:**

Truckers believed to be reliable will be available to assist you in shipping your purchases.

**TERMS AND CONDITIONS:**

Cattle will sell under the Terms and Conditions as recommended by the American Angus Association. Effective June 1, 2009, all Angus cattle must be paid for the day of the sale or money wired the next business day. If one of these two transactions does not take place, the purchase is declared void and at this default, the buyer is responsible for sales expense!

**LIVESTOCK MORTALITY INSURANCE:**

A representative from Great American Insurance Group will be available to assist you with mortality insurance for your purchases.

Sale book prepared by the Sale Managers, TOM BURKE, KURT SCHAFF, JEREMY HAAG, RANCE LONG, AMERICAN ANGUS HALL OF FAME, At the WORLD ANGUS HEADQUARTERS, Box 660, Smithville, MO 64089-0660. Phone: (816) 532-0811. Fax: (816) 532-0851. E-mail: angushall@earthlink.net - www.angushall.com

**FOOD AND REFRESHMENTS:**

Join us for a steak supper the evening before, Saturday, October 17, 2009. Lunch provided sale day.

Visit the *Angus Journal* Web site, [www.angusjournal.com](http://www.angusjournal.com), to view this sale book online. References: American Angus Association®, AHIR®, AngusSource®, CAB®, Pathfinder®

**COMMENTS FROM SALE MANAGER:**

On behalf of the American Angus Hall of Fame, it is a pleasure to be working with McCurry Angus Ranch on their third annual production sale. This sale is certainly one of the fall sale season highlights as Andy, Mary, John, and Melody have put together an outstanding set of show heifer prospects that have what it takes to compete at all levels and then go on and become tremendous donor females.

McCurry Angus Ranch has had a wonderful year as females from the past two sales have strived for excellence, including the 2008 NAILE Grand Champion Female. That same female went on to be selected as the Reserve Grand Champion Female at the NWSS Junior Show. Another female and flushmate was chosen to be the Reserve Junior Yearling of the 2009 NWSS. Success continues as purchases by juniors have gone on to produce more champions and build dreams and cow herds such as the Reserve Grand Champion Female and Reserve Bred and Owned at the 2009 Western National Angus Futurity in Reno, Nevada. That female went on to be Champion Bred and Owned Female of the 2009 Central Regional Angus Show and Reserve Senior Yearling at the NJAS. Two other juniors also have made return on their investments producing the Late Senior Heifer Calf Champion at the NJAS and the 2009 Grand Champion Angus female at the KS State Fair.

It has been an outstanding year for McCurry Angus Ranch genetics and the third annual production sale offers to be the best yet as John and his family have put together an outstanding set of Angus females that have what it takes to compete on all levels. As you flip through the sale book you will find what you are looking for whether you are in need of a show heifer, powerful bred heifer, or an elite cow/calf pair. Please plan to be with us on October 18, 2009, in Burrton, Kansas, for the McCurry Angus Ranch Annual Production Sale, and if we can be of any assistance please feel free to contact us at any time at (816) 532-0811.

Sincerely,

  
 Tom Burke

Owned with Shane Werk of Herman, Minnesota. This featured herd sire combines balance and look with a spread of calving ease and performance. Unique in his combination of sheer power with calving ease, he combines the long-time McCurry herd sire Marands Donamere 9845 with the Pathfinder Sires Leachman Saughatchee and Bon View Emulation EXT 473. This featured herd sire for McCurry Angus Ranch has an individual birth ratio of 95, weaning ratio of 114, yearling ratio of 107, U%IMF of 102, UREA of 106, and stems from one of the most productive families in the McCurry Angus Ranch program. He stems from a dam that records BR 3@97, WR 3@104, YR 1@107, U%IMF 1@102, UREA 1@106.

He is a calving-ease sire that adds performance, eye appeal, and ribeye to his offspring. This featured herd sire's genetics sell throughout this year's offering where special attention should be paid to his standout group of heifer calves.

SAV 8180 Traveler 004 continues to set the standard for the breed as the foundation performance and maternal sire. In the past two years combined, more progeny of Traveler 004 has been registered than any other sire in the industry. SAV 8180 Traveler 004 consistently stamps his progeny with length, thickness, muscle, and breed-leading performance.

His daughters in production are unsurpassed in the industry for maternal function. They are moderate framed, easy fleshing, fertile females with superior udder quality and optimum milk. Over 750 direct sons of SAV 8180 Traveler 004 have sold in the past SAV sales and met with record commercial and purebred demand and include the world record-selling sire group of bulls.

SAV 8180 Traveler 004 is a legendary sire who will continue to impact the entire beef industry for years to come. As you flip through the sale book, you will see that many of the females are out of daughters of the great SAV 8180 Traveler 004 and his influence is felt throughout this grand event.

SAV Bismarck 5682 is a unique and proven calving-ease sire representing an outcross pedigree with all the qualities we are looking for in Angus cattle. He is achieving wide-spread popularity for his impressive low birth weight progeny who display exceptional structure, appealing muscle shape and proud character.

Bismarck scanned a 365-day REA at 16 inches for a ratio of 111. He offers superb EPDs in all traits of magnitude and the next step in the breeding program at McCurry Angus Ranch.

His feminine, heavy milking dam is a bona fide herd sire producer with 15 sons who have sold in past SAV sales for an average of \$16,250 to herds in 12 states and Canada. Three sons are enrolled in major AI studs and Bismarck combines all the elements of EPD performance, cow family and phenotype to be a major contributor to the future of the beef cattle industry.

His daughters were selected as the 2009 Grand Champion and Reserve Grand Champion Females at the National Junior Angus Show and he will be represented well by his progeny in this sale.

SAV Net Worth 4200 has no equal as the most dominant sire of muscle thickness in the Angus breed.

He is a real world performance bull that has taken the industry by storm transmitting unprecedented thickness, muscle, volume and power to his phenomenal progeny who have gained him worldwide recognition.

SAV Net Worth 4200 was the \$117,500 top-selling bull of the 2005 SAV sale where he was the lead-off bull of the record-selling sire group. His pedigree combines the herd sire producing SAV Blackcap May family with the two greatest breeding bulls ever identified for performance, SAV 8180 Traveler 004 and SAF 598 Bando 5175.

Net Worth is the most unique and powerful Angus bull in the world and a major force in the future of the Angus breed. His progeny will be offered throughout this sale.

Without question, one of the great young females ever produced in the McCurry Angus Ranch program and certainly a standout in the Angus breed's class of 2009. She is a powerful young daughter of BC Lookout 7024 and stems from the famous SAV Elba cow family on the bottom side.

This powerhouse young female has the tools it takes to compete at all levels and certainly offers worlds of potential not only for the show ring but more importantly as a truly great donor of the future. She combines excellent EPDs

with an impeccable pedigree that stacks six generations of breed-leading AI stud sires with some of the most famous and productive cows in the breed. Phenotypically, she is truly unique. She is thick ended, deep bodied and massive in her makeup yet still maintains the femininity, balance and structural integrity that great Angus females are known for.

This female is backed by generations and generations of proven genetics as the featured great-grandam of this female is a full sister to the \$100,000 valued model Angus cow with perfect structure, SAV Elba 1094, who went on to produce the legendary SAV Peacemaker 3179 and the featured ABS Global AI Sire who is the top valued bull in SAV history. His mother has tallied \$250,450 in receipts on 18 progeny who have sold in past SAV sales in 19 states and Canada.

This female offers unlimited genetic potential and is a "can't miss" sale attraction of the 2009 sale season.

SAV ELBA 1094 – Full sister to the great-grandam of Lot 1.

SAV ELBA 7099 – Fourth generation dam of Lot 1.

She has an individual birth ratio of 92, progeny production record of WR 2@103, YR 2@103, and stems from a dam that records BR 7@96, WR 7@104, YR 2@102, U%IMF 3@133 with two daughters in production with an average nursing ratio of 104.  
 Bred to calve May 4, 2010, to SITZ UPWARD 307R.

# Four Generations of Angus Heritage

## McCurry Angus Ranch History

Marands Angus namesake originated in 1977 with the marriage of two third-generation Angus breeders: Andy McCurry (KS) and Mary Elizabeth Smith (TN). They met at Kansas State University where Mary was finishing up her M.S. degree in Food Science/Meat Science and Andy had returned to complete his B.S. in Animal Science, having left the McCurry Bros. family operation in 1975 to pursue his own dreams – something he could call his own.

Operating on almost 1,300 acres of Sandhill pastures near Hutchinson, KS, Marands Angus is a family owned cow/calf operation that focuses on raising and developing bulls for the commercial rancher. Our enjoyment of helping new Angus breeders and 4-H/FFA members with Angus projects has also created a market for Junior heifer prospects. We run a fall-calving herd of 200 females and a spring herd of 100 Angus-based recipient females.

Converting a sandy, blowing row crop farm to a fertile haven of both cool and warm season grasses can be attributed to Andy's love for developing pastures to support a forage-based environment for our cowherd. This 30-year conversion process has earned our family the Reno County, KS "Grassland Award" while also hosting multiple KSU Extension grass tours.

The pastures on the home place have been developed by Andy to compliment the fall-calving herd of approximately 200 females. Wrangler & Guymon Bermuda grass, Tall Hosea Wheat grass (for alkaline soils), brome and fescue run the gamut. Each have a place in the rotational grazing program and were selected based on soil type and annual rainfall limitations. The spring herd consists primarily of 100 commercial cows used as recipients for the donor program and are run on native pastures.

The background of these two newlyweds parallels—both were third generation Angus breeders—one from KS and one from TN. Their story reads like this:

John S. Smith

### Andy's Grandfather

Walter and Cora (Workman) McCurry purchased their first two Angus heifers from his brother-in-law, Johnson Workman, in 1928. Workman was a noted pioneer in agriculture and the Angus breed, having started his registered herd in 1913 in Kansas. The Workman cattle won many Champion Carlot shows at the American Royal and International Stock Shows in the 1920's. Johnson Workman was firm in his belief that fads and fancies were detrimental to a sound breeding program.

### Andy's Father

A.J. McCurry is the oldest of the five "McCurry Bros." Each brother carried a responsibility in keeping this family operation moving and the compatibility of these five brothers, working as a team, has been the source of amazement for people who have known them for many years. Each brother was suited to a different task. AJ was in charge of alfalfa production, maintenance and hog operation, Odell the row crop, Bob the wheat farming and show cattle, Dale the cow herd and show cattle and Cecil operated the grain elevator and took care of the books.

### Mary's Grandfather

John Mathews Smith was a successful farmer and stockman near Jackson, TN. He ran a commercial herd and utilized registered Angus bulls beginning in the 1950's. His two sons, John and Neil Smith, attended the University of Tennessee, were on successful livestock judging teams and were WWII veterans. Each continued their love of farming and raising cattle. Neil joined his father's operation and Mary's dad, John Sanford Smith, purchased his own farm in 1953 after serving as a Tennessee Ag Extension Agent.

L to R: A.J., Dale, Odell, Bob and Cecil McCurry

### Mary's Father

An unfortunate farming accident in 1955 left John Smith with one arm, thus necessitating the dispersal of his daily herd. One year later, after rehab in a VA hospital in Memphis, TN, John returned to his farm and began purchasing registered Angus females at dispersal sales throughout the South and started his cow/calf operation. His herd grew as did his three daughters' involvement in Junior Angus activities, both on a state and national level. Two daughters were crowned National Angus Queens: Mary in 1971-72 and Beverly in 1975-76. Daughter Sue was a National 4-H Winner in the Veterinary Science project in 1972. The family was named Tennessee's first Angus Family of the Year in 1973.

John was a past president of the Tennessee Angus Association, Tennessee Livestock Association, named Mid-South Ag Press "Man of the Year" and was a member of the American Angus Association Board of Directors from 1972-1978. It was during his service on the board that the Certified Angus Beef program was initiated as well as many other programs that set the Angus breed apart.

*This is a tribute to the six men pictured above. They shaped our lives with example and taught us integrity, work ethic, perseverance, a fondness of agriculture and especially a love for Angus cattle. All six served our country in uniform during times when freedom was at stake. From the depths of our hearts, thanks for everything!*

# Suggested\* Sale Terms and Conditions

## American Angus Association • Effective February 18, 2009

UNLESS OTHERWISE EXPRESSLY STATED IN THESE SALE TERMS AND CONDITIONS OR ANY OTHER WRITTEN AGREEMENT BETWEEN THE PARTIES RELATING TO THE SALE OF ANGUS CATTLE UNDER THESE SALE TERMS AND CONDITIONS, SELLER MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, EVEN IF SUCH PURPOSE IS KNOWN TO THE PARTIES.

THE REMEDIES PROVIDED IN THESE SALE TERMS AND CONDITIONS ARE THE EXCLUSIVE REMEDIES OF THE BUYER, OR ANY PARTY CLAIMING THROUGH THE BUYER, AND UNDER NO CIRCUMSTANCES WILL THE SELLER BE LIABLE FOR ANY INCIDENTAL, INDIRECT, SPECIAL, CONSEQUENTIAL, PUNITIVE OR EXEMPLARY DAMAGES UNDER ANY INDEMNITY PROVISION OR OTHERWISE.

### TERMS OF SALE

#### Bidding

1. Each animal will be sold to the highest bidder. The person in charge will settle any disputes as to bids, and his decision on such matters will be final.

#### Announcements

1. If there is any inconsistency in the terms of any sale book, supplement sheet or day-of-sale announcement, (i) the day-of-sale announcement will control over both the supplement sheet and the sale book, and (ii) the supplement sheet will control over the sale book.

#### Cash Sale

1. All sales are for cash unless satisfactory credit arrangements, including any possible reservation of security interest by the vendor, have been made with the vendor prior to sale.

#### Buyer's risk

1. The risk of loss and injury of each animal passes to the buyer as soon as it is sold; but it is the obligation of the seller to ensure that animals are fed and cared for free of charge to the buyer until loaded for shipment or until the expiration of 48 hours after the sale, whichever occurs sooner.

#### Identification

1. The seller must ensure that each animal has a readable permanent identification mark (e.g., tattoo, hot-iron brand or freeze brand) corresponding to its registration.
2. The buyer must check all permanent identification marks for accuracy.
3. In those cases where a nickname is used by the seller, the nickname must also be accompanied by the official registered name and number of the animal.

#### Certificate of registration

1. A transferred certificate of registration must be furnished by the seller free of charge to the buyer for each animal within 45 days following the later of the date of sale and receipt of full payment.

#### Artificial insemination (AI) service certificates

1. Upon the buyer's request, AI Service Certificates must be furnished by the seller free of charge to the buyer for all females bred artificially to bulls not owned by the seller.

### GUARANTEES

#### Health

1. Unless otherwise announced, the seller guarantees that all animals are eligible for interstate shipment as required by federal regulations.

#### Conformance with registration

1. The seller guarantees that all animals are registered under the rules of the American Angus Association.
2. The seller guarantees to the buyer that all animals conform to the registration certificate as entered in the Herd Book of the American Angus Association.

#### Pedigree

1. The seller guarantees to the buyer that the pedigree, performance data and individual genetic defect designation of the animal, as represented in any sales materials (including any sale book, supplement sheet or day-of-sale announcement), is accurate.
2. The absence of any such designation on the pedigree of an animal, in a sale book, does not establish that the animal in question is not a carrier of any such genetic defect or genetic factor.
3. In those cases where a commonly understood nickname is used by the seller, the seller guarantees the pedigree of the animal based on the commonly understood nickname.

#### Sex

1. Unless otherwise represented by the seller, there are no guarantees that offspring will be of a particular sex.

#### Breeding guarantees

1. The seller guarantees that all bulls are breeders, but only if such bulls are at least 12 months old at the time of sale and have not been allowed to run with the herd until at least 14 months of age. A bull that settles a cow by natural service and passes a fertility test made by competent veterinarians mutually agreed upon by the buyer and the seller, during any six-month period of trial (provided for in paragraph 2 of the section entitled "Options and privileges of return or adjustment") will be considered a breeder. Unless otherwise agreed by the buyer and the seller, the seller makes no guarantees with respect to the ability to freeze semen.
2. The seller guarantees that all animals are breeders, with the exception of: (a) calves under 12 months of age at the time of the sale; (b) animals shown after the sale has occurred (in such cases, the breeding guarantees, if any, will be those guarantees as are agreed upon between the seller and the buyer); (c) injury or disease occurring after the sale; and (d) gross negligence or willful misconduct on the part of the buyer.
3. "Safe-in-calf" females are guaranteed by the seller to have been examined by a competent veterinarian and determined to be in calf.
4. "Served" females are not guaranteed to be in calf.
5. "Pasture-bred" females have been exposed but are not guaranteed to be in calf.
6. "Open" females have not been served and are guaranteed by the seller to be without calf.
7. Donor females:
  - a. Unless otherwise agreed by the buyer and the seller, a female that has been used in an embryo transfer program is not guaranteed to be a breeder after the date of the sale.
  - b. Unless otherwise agreed by the buyer and the seller, a female is not guaranteed to be a breeder after the date of the sale, when that female is to be used, or attempted to be used, in an embryo transfer program.
8. The seller makes the following guarantees with respect to all "pregnant recipients": (i) that the female is pregnant, (ii) that the resulting calf is of the pedigree represented, and (iii) that the resulting calf is of the sex represented (if so represented).

#### Semen

1. Unless otherwise agreed by the buyer and the seller, with respect to the sale of semen the seller makes no guarantees with respect to the performance or characteristics of such semen and the

buyer is purchasing such semen "as is."

#### Embryos

Unless otherwise agreed by the buyer and the seller, with respect to the sale of embryos the seller makes no guarantees with respect to the performance or characteristics of such embryos and the buyer is purchasing such embryos "as is."

#### Options and privileges of return or adjustment

1. Except as provided in paragraph 2 of this section, all claims for adjustment or refund must be made in writing on or before the later of (i) six months after the sale date and (ii) the date on which the animal reaches 30 months of age.
2. All claims relating to the misrepresentation of service sire and all claims relating to paragraphs 9 and 10 of this section must be made in writing on or before the second anniversary of the date of sale.
3. If an animal is claimed to be a non-breeder, the animal may be returned to the seller if in good condition and complying with the health requirements of the seller's state. The seller is entitled to six months trial following the return of the animal in which to prove that the animal is a breeder. If at the end of the six-month period the seller is unable to prove the animal is a breeder, the seller must, at the option of the buyer, replace the animal with another of equal value or refund the purchase price. The return of the full purchase price will be deemed full satisfaction and settlement. Any expense incurred for transporting an animal claimed to be a non-breeder will be the responsibility of the buyer, except that the seller will be responsible for transportation costs in excess of the distance between the buyer's farm and the location where the sale took place. If the seller proves the animal to be a breeder, it will be the obligation of the buyer to take delivery of the animal and pay all transportation expenses.
4. If a female sold as "safe in calf" proves not to be in calf, the buyer may receive service from the bull previously used, if available. If the bull is not available, the seller must make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon return of the animal to the farm of the seller. Any adjustment provided for in this paragraph will absolve the seller from further liability, except in if such female proves to be a non-breeder. If a female represented as "safe in calf" to a certain bull at the time of sale proves to have been bred to a different bull, the seller must make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon return of the animal to the farm of the seller (adjustments will not be considered to be a breeding fee or an allocation of the purchase price to any unborn calf).
5. If a female sold as "open" proves to be with calf, the buyer may return the animal to the farm of the seller prior to calving for a refund of the full purchase price or for another animal of equal value, whichever is acceptable to the buyer. The Seller is responsible for all transportation expenses.
6. Cows with calves at their side are presumed to be breeders with no further fertility guarantee.
7. White skin or hair must not be painted or altered. If such painting or alteration has occurred, the buyer may return the animal to the farm of the seller for a refund of the full purchase price or for another animal of equal value, whichever is acceptable to the buyer.
8. If an animal (including the offspring of a pregnant recipient) is sold and at a later date proves not to have been eligible for registration under the rules of the American Angus Association, the seller must make a satisfactory adjustment on the purchase price to the buyer, or at the option of the buyer, refund the purchase price upon the return of the animal to the farm of the seller.
9. If (i) an animal is sold (including the offspring of a pregnant recipient) and through DNA-marker-typing is proven to have incorrect parentage, as represented by the certificate of registration, and for which parentage can be determined, or (ii) the resulting calf of a pregnant recipient is not of the sex represented, the seller is obligated to make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon the return of the animal to the farm of the seller.
10. Except as provided in paragraphs 3 and 5 of this section, all transportation expenses incurred will be the responsibility of the buyer, except that the seller will be responsible for transportation costs in excess of the distance between the buyer's farm and the location where the sale took place.

#### Retention of genetic material

1. Unless otherwise agreed in writing by the seller and the buyer, the seller will not retain any genetic material of any animal (including embryos and semen) for the purpose of cloning.

#### DISCLOSURE OF TESTS RESULTS FOR KNOWN GENETIC DEFECTS AND FACTORS

The seller shall have an affirmative duty to notify the buyer of any test results for genetic defects or genetic factors not otherwise reflected on an animal's pedigree.

#### Optional Guarantee: Genetic Defects

1. The buyer and seller may determine the scope and duration of a guarantee, if any, on an individual basis. The seller may, but is not required, to provide a guarantee to the buyer relating to genetic defects.
2. Nothing contained herein should be construed to relieve the parties from complying fully with all the rules and policies of the Association relating to genetic defects generally or individually.

#### MISCELLANEOUS

1. The above terms and conditions of sale constitute a contract between the buyer and the seller of each animal and are equally binding upon both parties. Each sale or resale of an animal constitutes a separate transaction.
2. Neither the sponsor or sponsors, the sale manager, nor any other person connected with the management of the sale, assumes any liability, legal or otherwise.
3. These sale terms and conditions and all rights, obligations and duties arising hereunder and all disputes arising hereunder will be construed in accordance with, and governed by, the laws of the state in which the sale of the animal or animals occurs, without giving effect to such state's choice of law rules.

\* For voluntary consideration and use by sellers in their independent business judgment.
